

Batesville Parks Department

716 S. Park Ave.

Batesville, IN 47006

Batesville Parks is accepting donations for recycled picnic tables and benches to be used in Liberty Park, Brum Woods and along trails.

These are recycled plastic picnic tables and benches that are maintenance free and last a very long time. These are ordered from Plastic Recycling of Iowa Falls and can be found on their website

<https://plasticrecycling.us/recreational/>

Every year, they recycle more than 5 million pounds of plastic into environmentally sustainable products. This is the equivalent of 35 million milk jugs that would otherwise end up in a landfill.

The Parks department has many of these products being used but need more to replace the old wood, metal, or concrete benches and picnic tables.

This is a great opportunity to be environmentally friendly, makes a great gift, or a great way to memorialize a loved one. The benches or picnic tables can usually be placed at the donors desired location in Liberty Park, Brum Woods, along trails, or the new skatepark.

New picnic tables are also needed in the shelters, starting with the BT&D shelter near the tennis courts. An entire picnic table can be donated or even ½ of a picnic table for \$500. 2 plaques would be placed on each end of the table with your desired wording and these picnic tables would replace the wood ones currently in the BT&D shelter.
